Red: represents their colour, which comes from lycopene – an antioxidant that can reduce the damage caused by free radicals.

Gold: represents their quality and the gold standard for processed organic tomato products in Europe.

But given the huge number of tomato products available, what makes organic Red Gold tomatoes from Europe so special?

Red Gold Tomatoes from Europe select only premium quality organic fruits, with firm flesh, strong skins and rich flavour, which are the most suitable for processing into various tomato products. After the fruit has been carefully picked, modern manufacturing plants with state-of-the-art monitoring systems select, clean, steam, cool and process the tomatoes. The finished products are premium organic
